DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 12-14 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Beswick (US 5,022,165). The face of that reference discloses each of the claimed features and language such as "for treating," "suitable to receive," "to allow," and "to keep" are construed to be statements of intended use and only given patentable weight that structurally and functionally distinguishes the claimed invention from the prior art. In this application, the prior art clearly shows each of the claimed features.

Response to Arguments

Applicant's arguments with respect to claims 12-14 have been considered but are moot in view of the new ground(s) of rejection.

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Each of the references cited in this action teach one or more features of the claimed invention but are not used in rejecting the claims.
